

2026 Chinese Summer Camp

Extraordinary Beijing—

“Pioneering AI, Modern Art, Elite Universities”

- The Experience: A 2-week immersive journey balancing daily structured Chinese class with real-world city exploration.
- The Highlights: Discover traditional roots (Forbidden City, Cloisonné & Papermaking workshops), explore modern aesthetics (798 Art Zone), and touch the future (Tsinghua University, AI Robots)
- For Ages: 12-18

Still think Beijing is just an ancient capital?

If so, it's time to update your perception!

This summer, you will straight to where the "future" is being made:

AI Robots

Get up close with cutting-edge robotics at Beijing's tech frontier, and experience how AI is shaping our future.

China Science and Technology Museum

Explore the wonders of science through immersive, hands-on exhibits at China's premier museum, bringing theory to life.

Are you ready for an intellectual spark with China's brightest minds?

Tsinghua University

This is China's premier university for science and technology. Stroll through the historic campus and feel the pulse of pioneer tech. Ignite your academic dreams with the spirit of innovation!

Renmin University of China

This is China's leading university for humanities and social sciences. Explore the top institution for humanities. Broaden your global perspective and cultivate independent thinking.

Elite Universities

Think Beijing's art scene is all about traditional ink paintings and Peking Opera?

Well, think again!

798 Art Zone

An art festival inside a former factory town!
Explore old Bauhaus workshops and intersecting
pipes, and feel the dramatic contrast between
traditional industry and bold contemporary art.

Pop Land

Immerse yourself in China's very first designer toy
theme park! Here, art becomes pop culture you
can actually touch. Get up close and personal with
the vibrant energy of original Chinese characters
and fresh, youthful designs.

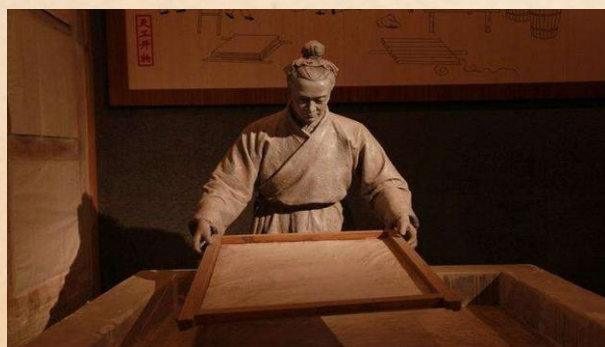

Modern Art

Looking back, the red walls and golden tiles remain timeless.

This summer, you will traverse grand historical narratives and experience the most traditional handicrafts:

Imperial Majesty: Conversing with Ancient Empires Walk across Tiananmen Square and venture deep into the magnificent Forbidden City.

Living Heritage: In our exclusive workshops for Ancient Papermaking and Cloisonné crafting, experience firsthand the relentless pursuit of perfection by ancient Chinese artisans.

Exclusive Customized Learning Materials

This summer, you will be using our exclusively developed, immersive, and interactive learning materials. This is more than just a textbook for your Chinese classes; it is your ultimate guide to perfectly unlocking your Beijing adventure.

- **Practical Application:** We deeply integrate classroom learning with real-world city exploration. Each lesson will "equip" you in advance with the core vocabulary, practical sentence structures, and grammar needed for the next day's activities. This ensures that every Chinese sentence you learn immediately comes alive in real-life scenarios the very next day.

Exclusive Customized Learning Materials

- **Immersive Historical Companions:** Let historical figures guide you through new destinations. Breaking away from the rigid lectures of traditional textbooks, we've invited legendary figures from ancient China into the classroom as "guest mentors." Learning the language under the vivid guidance of these "historical NPCs" turns every pronunciation and expression into a fascinating, fun-filled dialogue across time and space.

Exclusive Customized Learning Materials

- **Cultural Heritage:** Deciphering cultural genes from the past to the future. Through an in-depth analysis of words and sentences, we will show you how ancient Chinese wisdom is revitalized in contemporary art, and how it has evolved into world-leading, cutting-edge technology. As you absorb the language naturally, you will truly experience and understand both the heritage and the innovation of Chinese culture.
